1/16/22 - Meeting Agenda

1. Weekly Club Questions (5 mins)

2. Jay Feng (CEO of Interview Query, Former Data Scientist at Nextdoor and Monster)

3. Discussion around ChatGPT

4. Project Part 2 Lin. Regress. Review Demonstration by Ascari Chotoosingh

Weekly club questions to consider

A weekly set of questions to encourage conversations during the club's meetings.

1. Is there anything you've observed in the DS club that could be improved or amended?

2. Have you seen or read anything DS-related (Books, news, sports, politics, etc.) that you would consider exciting and interesting and therefore communicate or recommend to the club?

3. In what ways can the DS club assist you in any of your career endeavors?

4. Is there someone in this club or cohort that is deserving of praise or encouragement?

5. Do you have any interest in participating in a data science competition?

Creating an Open AI Account

1. https://chat.openai.com/auth/login

Discussion on ChatGPT

1. What is ChatGPT?

2. How Does it Work?

3. Can ChatGPT automate essay composition? If so, should students/employees be allowed to use it when writing essays/creating reading decks?

5. What are the ethical, commercial, and societal implications of AI chatbots? Will these new software applications influence the demand of knowledge workers? Or is this just another instance of the luddite fallacy?

6. How can use ChatGPT to our advantage?

7. Are there any additional concerns you have about ChatGPT?
